NOTICE TO HEART CONSULTANTS PATIENTS

Dear Patient:

Beginning February 2, 2009 Heart Consultants will be utilizing an electronic prescribing system via the internet for all your new prescriptions and refills. The majority of pharmacies have already signed up for this service and soon they will all be required to participate in this service.

You will still contact your pharmacy for refills as you have done in the past. If you find that your prescriptions have not been filled, please ask your pharmacy to check their electronic prescription software first as we have found that the majority of delays in getting your refills and new prescriptions filled is because the pharmacies have not been regularly checking this new method of getting prescription data to them.

Thank you for your patience in this matter and should you have any questions, please feel free to contact us.

Sincerely,

Physicians and staff of
Heart Consultants
